DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amir H. Behnia on 24 March 2005.

The application has been amended as follows:

- The first paragraph of claim 1 has been replaced with:
--A method of producing a bar notch (3) in a side of a side member (1) and a cross member notch (4) on an end of a cross member (2) using an apparatus having a triangular knife head, a guide for slidably supporting said triangular knife head therewithin, said guide being movable in a horizontal direction, a table, a rest disposed on said table, a second guide disposed on said table, and a second guide member slidably disposed on said second guide and slidable in a direction crosswise to the rest, the method comprising the steps of:--

Allowable Subject Matter

2. Claims 9-14 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 9-14 are allowable because of the method with a triangular knife head, a guide for slidably supporting the triangular knife head and being movable in a horizontal direction, a table,

a rest disposed on the table, a second guide disposed on the table, and a second guide member slidably disposed on said second guide and slidable in a direction crosswise to the rest as set forth in the claims. None of the prior art cited discloses a method that incorporates the use of a a triangular knife head, a guide for slidably supporting the triangular knife head and being movable in a horizontal direction, a table, a rest disposed on the table, a second guide disposed on the table, and a second guide member slidably disposed on said second guide and slidable in a direction crosswise to the rest to perform a preliminary shearing/punching on a side member and a cross member and secondarily shearing/punching on a side member and a cross member. Therefore, in view of what has been stated above, the claims are allowable over the art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
